Honeycomb

Welcome to Honeycomb! Honeycomb is our on-line communication system for parents. You will love how easy this tool is for helping you stay up-to-date.

- Receive pictures of your child's day
- View your child's Daily Report
- Earn Badges to celebrate accomplishments in the classroom

Log in to check it out!

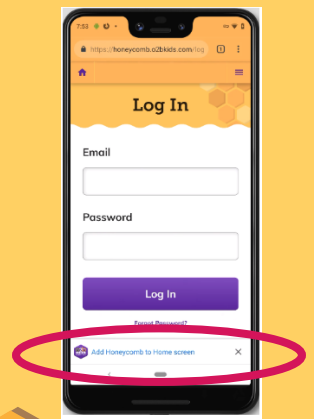

Set Up Your Account

1. Go to honeycomb.o2bkids.com
2. Enter the same email you use in the parent portal.
3. Click "forgot password" to get an email to reset it. This will not change your Parent Portal password, only your log-in for Honeycomb.

Add Honeycomb to Your Home screen

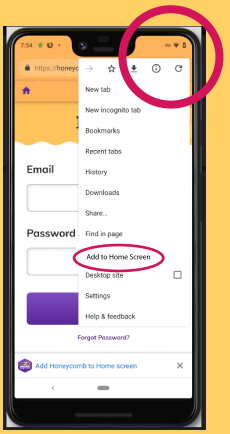

Android

After the page loads on Android, about 2 seconds later, you will see a bar at the bottom like this:

OR

Open the menu on the top right and click Add to Home screen (shown below).

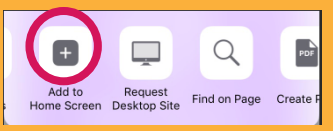

iPhone

In SAFARI:

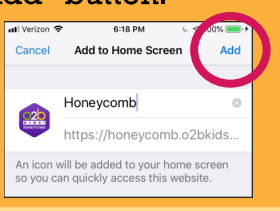

1. After Honeycomb loads on iPhone, press the share button at the bottom of the page.

2. Swipe & select "Add to Home Screen."

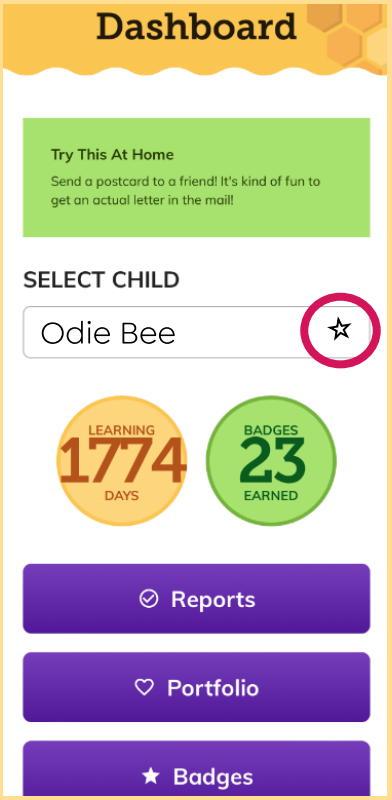

3. Press "Add" button.

We are very interested in your feedback. Please let your Director know what you think!

What to Expect

- Notice daily "tips" or "try this at home" for fun!
- "Select Child" from the drop down.
- "Learning Days" is how long your Child has been in our Program!
- "Badges" celebrate skills learned & fun days!
- "Reports" will track bottle feeding & diaper changes. As a child progresses, teachers will track potty training & bathroom attempts. We may also send messages about supply needs (diapers/wipes, etc) and reminders about events, dress up days & more!
- "Portfolio" is where you find "Moments & Memos." Moments will show your child during a lesson and include standards & skills learned. We may also send fun images of your child through out the day that aren't specific to a lesson. You'll get notices, event reminders, inclement weather updates & more!

Honeycomb Reports
Are most common for infants and younger children.

Honeycomb Portfolio
Moments & Memos will occur for all students.

You will get an email every time a moment is sent out. "Bee" on the lookout!

Let us know if you have any questions or need assistance with Honeycomb. Thank you!
